

**PRIVATE OUTDOOR LIGHTING
SERVICE CLASSIFICATION**

AVAILABILITY

This rate is available throughout the City of Dover electric service area for all-night outdoor lighting service for lighting of outdoor areas on private property.

CHARACTER OF SERVICE

UNMETERED – This will be the standard installation practice. The lights under this classification shall be fed directly from the City of Dover’s energy source.

METERED – This classification will be available at the City of Dover’s discretion and only when it is not feasible to install the lighting service from an unmetered source. These lights will have the energy supplied through the customers meter and the monthly rental fee shall be reduced to reflect this customer expense.

TERMS OF SERVICE

The equipment supplied will be the type of fixture currently being furnished by the City at the time of installation as described below in the Classifications of Security Lights, Decorative Lighting, and Roadway/Area Lighting. Lighting shall be from dusk to dawn each day.

The initial term for lighting service shall be for two (2) years. The City may require a fee if the installation is removed prior to the two (2) year term.

Where service is not associated with a metered service, a Customer Charge of \$5.00 for residential lights and \$10.00 for commercial lights will be added to cover the associated costs of billing and related consumer costs not reflected in the lighting schedule.

Unmetered – The City shall maintain, relamp, and supply the energy to the lighting equipment that it owns.

Metered – The City shall also maintain and relamp the lighting equipment it owns where energy is supplied through the customer’s meter.

The City will perform relamping, repair, and/or maintenance during normal working hours within a reasonable period following notification by the Customer.

Customers requiring unique or unusual lighting service different than outlined below may obtain such service under a mutually agreeable contractual arrangement.

SECURITY LIGHTS

Includes a 2’ (+/-) arm, pole not included. If a pole needs to be installed, the location shall be accessible to truck traffic via driveway, roadway, alleyway, or other public accessible parking areas. If a pole must be installed and the location is not truck accessible, a decorative lighting fixture may be installed at the applicable rated.
